

Balance of London

Source Data
Ordnance Survey Open Roads & Open Zoom Stack
Department for Transport Bus Open Data Service
National Rail Timetable Data
Map CC 2025 Ward Alsafi

This map shows where there is a mismatch in city-wide public transport accessibility vs local density. It indicates where further study into densification or accessibility provision could be made.

It counts access to points of interest derived from Overture Maps as an indicator of access opportunities. These are weighted by distance.
